

Attention FCC and it's constituents, I personally benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that is not available elsewhere and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge you to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Sincerely,

Scott Spradling
